UX NETWORK DEVELOPERS COMPLETE INTER-BLOCKCHAIN COMMUNICATION

The UX Network has been hard at work building core infrastructure for the people of Antelope. Cheers were heard across the ecosystem when the engineers completed work on Antelope Inter-Blockchain Communication (IBC), ushering in a new era of collaborative innovation for the world of Web3.

INSTANT FINALITY IS ON THE HORIZON

With IBC released, the team is now able to focus their resources on launching Instant Finality. This innovative feature will allow transactions on Antelope to achieve finality in seconds.

What's New With WAX Network

In February, the wallet for the WAX ecosystem received an epic rebuild. In addition to a sleek new look, users now no longer need to pay to open an account and an NFT Token Bridge now allows WAX NFTs to teleport to Ethereum & BSC.

The future looks bright for WAX after unveiling their 2022 roadmap.

- Unity SDK
- IRL Marketplace updates
- USD pegging to BP Rewards
- NFT bridge to Ethereum & BSC
- Enhancement of Block Explorer
- and More

TELOS FOUNDATION YEAR END RECAP

Now that 2022 has come to a close, the Telos Foundation looks back on some exciting milestones!

- Rapid Community Expansion
- Introduction of Telos Ignite Ventures & Grants
- Onboarding of Top-Tier Exchanges
- Launch of Telos NFT Hub
- Increased Event Presence
- and More

In late 2022, Telos announced Telos Fuel with the mission to create a competitive DeFi ecosystem.

In January Telos Boost was launched, a bootstrapping liquidity grant program that received 3.2m TLOS in allocation. Selected applicants will receive liquidity support and firsthand introductions to exchanges, investors, & partners.

WHAT IS ANTELOPE?

Antelope is an open framework for building fast, secure, & user-friendly Web3 products & services. It is the underlying protocol of the EOS, Telos, WAX and UX Network blockchains, which together form the Antelope Coalition.

WHAT IS ANTELORE?

Antelore is a glimpse into the futuristic worlds that inhabitants of the Antelope ecosystem are co-creating. We are all authors of Antelore!

ABOUT THE ARTIST

Evan Wasse is a multi-media artist working in Web3. These images were made in collaboration with A.I. Themes of utopian futurism, new frontiers, & prosperity reflect the ambitions of the antelope Coalition.

Antelope IBC is now Live!

After much anticipation, Inter-Blockchain Communication is live for all Antelope chains. Learn more in the UX section of this very Chronicle.

WHARFKIT SDKS UNVEILED

In November 2022, the Greymass team unveiled WharfKit, a powerful collection of SDKs they are developing that will massively improve the developer experience on Antelope!

P2P RFP Awarded!

The Antelope Coalition awarded an RFP to a team from Fudan University, one of China's top institutions. The goal of this RFP is to implement improvements to peer node discovery & synchronization processes within the P2P protocol of the nodeos service.

Pomelo Public Goods Update

Pomelo continues to be an important initiative funding open collaboration across Antelope. The Pomelo Astronaut NFTs took to the stars in the latest season, which boasts a $150k matching pool donated by the ENF. The Antelope Chronicle is funded by Pomelo, so if you enjoy it be sure to support our grant!
